MEMORANDUM FOR: Dr. Steininger, ADD/S&T

SUBJECT : Your Draft Memo for DCI

I would suggest your draft third paragraph be restated as follows:

I have gotten comments on this from the DDI, Mr. Duckett and [redacted] We all are satisfied with the draft as it stands. The pending COMIREX study on Utilization of Satellite Imagery, which is being prepared for USIB, has considered the problem of disclosure of "the fact of" satellite reconnaissance and its conclusions in present draft are consistent with the NSAM-156 draft report.

25X1A

Although OSD and NRO have previously indicated an intent to dissent from the draft's recommendation to declassify "the fact of", I understand from Bob Naka that Mr. Packard has instructed his people to concur with the paper as it stands in tomorrow's meeting.
